H. Huddleston, City Secretary, Dies Sunday

Hill Huddleston, 67, City Secretary of Comanche since 1931, died at his home here at 1:30 o'clock Sunday morning from heart trouble. He missed only Saturday from his official duties, leaving his office about an hour early Friday afternoon when he went home at the suggestion of John D. Waring whom he told he was feeling badly. Mr. Huddleston's illness was not considered serious and he went to sleep at the usual time Saturday night and slept soundly until just before his death. He was never able to talk to Mrs. Huddleston after he suffered the attack a few minutes before his death and died before a physician could arrive.

Funeral services were held Tuesday afternoon at 4 o'clock at the Comanche Baptist Church of which deceased had been a member for 38 years. Rev. George W. Shaefer of Dallas, a former pastor, assisted by Rev. A. Edwin Wilson, pastor, officiated. An unusually large crowd that more than filled the downstairs auditorium attended the services. Special music included a solo by Mrs. Shaefer. Interment was in Oakwood Cemetery. Pallbearers were Frank Reese, E. E. Anthony, Tom Pate, Hugh Lacy, L. P. Elkins, and George E. Smith.

Hill Huddleston, the son of the late Mr. and Mrs. Haden B. Huddleston, was born in Overton, Tennessee, April 11, 1871. When a baby he moved with his parents to Clinton County, Kentucky and lived there until he was 12 years of age when he came with his parents to Texas, settling in the Sidney community in 1883, where he lived until moving to Comanche in 1889. He was married in July, 1894 to Miss Maude Keith at Sidney, who with the following children survive: Ousley Huddleston of Amarillo, Mrs. W. C. McClean of Oakland, California, and Mrs. Ray Lee of Fort Worth. He is also survived by four sisters, Mrs. W. E. Cox of Lamesa, Mrs. Will Speck of Lanyon, and Mrs. Sophia Williams, Mrs. Mary Langston of Canby.

Before assuming the duties of City Secretary in 1931, Mr. Huddleston was for nearly thirty years associated with some mercantile interests here. He worked for Martin Company, Slider and Martin, Slider, Martin and Lacy, Slider and Lacy, and the Arlatex Store. For many years he was a trustee of Howard Payne College. He was one of the leading members of the local Baptist Church, being a deacon at the time of his death, and for many years was Sunday School Superintendent. He was one of the best known and most liked men in the county and for more than forty years had been actively identified with its civic, social, fraternal, and religious life.

Improvements In City And County Are Continuing

Comanche continues to build and pave. Wade Evridge has just completed his fifty foot front on the north side of the square and the same is being occupied by I. M. Vineyard & Son, grocery and market.

C. C. Baxter is completing the remodeling of his 50 foot front on the southeast corner of the square and expects to open a department store about April 10 with Rouse Baxter, his son, in charge.

C. A. Greene has plans complete for a five room cottage in northwest Comanche.

The city has ten blocks of paving under way, and the paving campaign bids fair to last through spring and summer.

The interior of the building formerly occupied by the Midway Cafe on the south side of the square has been remodeled and is now occupied by Riley's Grocery. Carpenters began work this week on completely remodeling the interior of the Mrs. George W. Tate home on North Main Street East.

Mr. and Mrs. J. V. Carter, Jr., are having plans drawn for a nice residence to be erected on a lot which they purchased more than a year ago in Northwest Comanche.

A new four room cottage has just been completed by Earl Williams in north Comanche, and work is now under way on a new home for Frank Huse, which is located on Highway 81, south of the square.

C. B. Williams has just completed a new home on his farm in the Fairview community, and the Jess Harris home on the western outskirts of the city, has been remodeled and repainted.

In the county, work is going forward on several road projects including the rebuilding of the road between Sipe Springs and Rising Star. Commissioner Leverett Little, with the aid of forty WPA workmen, has been at work on that road for several months and the work should be completed within about three months, Little states. When finished it will be an all-weather road, similar to the one between Comanche and Sidney.

Plans call for the building of a similar road between Sipe Springs and May when the Rising Star road is completed, Little said.

The last of the right-of-way on Highway No. 36 West has been bought by the County and work on the first 5 1/2 miles out of Comanche is expected to begin soon.

Jones Is Named Secretary City

H. R. (Hardie) Jones was appointed by the City Council early Monday morning to fill out the unexpired term of the late Hill Huddleston as City Secretary of Comanche. Mr. Jones accepted the position at once and began work in less than an hour following his appointment.

Mr. Jones is the son of Mr. and Mrs. E. H. Jones of Comanche and was reared in the Sidney community. Until recently he was Texaco Agent for Comanche and prior to and since that time had been with the Comanche Motor Company and the old Ford Motor Company here. He is president of the Comanche School Board, but is not a candidate for re-election. Mr. Huddleston's term would have expired May 1, 1939.

Mr. Jones, a few weeks ago announced as a candidate for County Tax Assessor-Collector. He stated that his recent appointment would not affect his candidacy, but he would continue in the race.

GOVERNMENT CHECKS RECEIVED BY RANCHMEN OF THIS COUNTY

County Agent's office, the first block of Soil Conservation checks has just been received and distributed to ranchmen who co-operated in the Range Improvement Program last year. The checks which range from \$2.00 to over \$200.00 in amount, total \$4,689.67 paid to 81 ranchmen for completing some range improvement practice on their respective ranches, according to County Agent N. E. Scudder. Only one of 80 applications for payment on range improvement has not been received.

Scudder advises that practically the same program will be carried out this year and he urges all ranchmen to file their applications for inspection in his office and at the proper time an inspector will visit the ranch and advise with the operator what practices should be instituted to qualify for assistance. He says he already has received and has on file 86 applications for inspection and determination of grazing capacity on 52,276 acres of range land and to institute conservation practices thereon as soon as the program is started for 1938.

Producers are advised that these checks are on the range program only and no checks are yet received on the Agricultural Conservation feature of the program but are expected any time. Producers will be notified as soon as these checks are ready for distribution, Scudder says.

County 4-H Club Members Profit On Baby Bees

(By N. E. Scudder, Co. Agent)

At the County Wide 4-H Club and FFA Fat Stock Show held in Comanche March 9th there were three baby bees exhibited by 4-H Club members as follows: Robert Earl Seay of Newburg, Eugene Perkins of Pettit, and Merida Barnett of Gustine. According to reports made to County Agent N. E. Scudder, these calves were fed an average of 256 days at a total cost including value of the calves at the beginning of \$205.01. The calves were sold on the open market at Fort Worth as were all the other calves of the Comanche County Show except one and brought a total of \$242.04 thereby netting the three young feeders \$37.03 or an average profit of \$12.34 above individual prizes won at shows amounting to \$10.00 in all.

In addition a late report from Carlton C. Peril of Sidney on his feeding demonstration last year shows that he fed out a calf last year for 100 days at a cost of \$35.25 including value at beginning which he sold October 10 as tops on the Fort Worth market for \$45.93 thereby netting him \$10.68.

All these youngsters with others will be at the show next year with more and better calves and good care. All boys in the county who do not have the advantage of vocational classes are urged to see the County Agent and join the Baby Beef Club.

Funds Granted For Highway 36 In Hamilton Co.

Money has been appropriated for 9.1 miles of highway topping on No. 36 from Hamilton to Wallace Branch, toward Jonesboro, according to J. C. Hibbs, Hamilton highway engineer. It is to be a contract job, and work will begin on the road shortly. Three more inches of rock will be put on the road before it is topped.

Both bridges on No. 36 between Hamilton and Jonesboro have been completed and opened to traffic. The base of the road has been completed to the filling station between Hamilton and the Leon River, and only 6.2 miles of unfinished road remain between Hamilton and Jonesboro.

Fire Station In New Location

Workmen began tearing away the old Fire Station building this week and actual construction on the new City Hall and Fire Station is scheduled to get underway Monday.

The Fire Station now has temporary headquarters in the Herring Building on West Main Street South.

Fire Chief Has Experience

Fire Chief R. C. Graham had a new experience Wednesday night, when for the first time in twenty-two years he slept under a roof other than that of the old fire station building in Comanche. The last time Chief Graham spent a night away from the station, while in Comanche, was in 1916 when his father passed away. He spent two nights, then, at the family residence.

Graham was selected as Fire Chief here in 1909 and began staying at the old station, and it was not until the death of his father that he spent a night under a "strange" roof here.

Johnnye's Beauty Salon In New Site

Johnnye's Beauty Parlor was moved Thursday to the New Higginbotham Building on South Main Street West into the quarters formerly occupied by the Basket Grocery. The rooms have been remodeled and fixed in the most convenient way to accommodate a beauty parlor and have been redecorated. New and latest equipment has been installed.

Miss Maurine Harrington of Fort Worth has been employed as an additional operator and will assist Mrs. Grady McKinzie and Miss Bertha Williams in the operation of the business.

MANY EXPECTED HERE FOR TRADES DAY MONDAY

Despite the busy season with the farmers, a big crowd is expected in Comanche Monday for Trades Day.

Every First Monday regardless of weather or time of the year, people for miles around come to Comanche for "First Monday." Many of the merchants are advertising special bargains for Saturday and Monday.

Miss Emma Louise McDonald was taken back to a Dallas sanitarium for a further examination the latter part of last week.

Oil Activities Continue In Co.

W. G. Sawyer and associates have moved in on the A. L. McDaniel place near Gap for a deep test. Considerable acreage has been blocked in that section for the test.

McCart and Anderson spudded in for a deep test on the Smith Estate tract in the Amity community last week and drilling is going forward with a big National rig. Hon. George E. Smith of Comanche is interested in this well as it is on the estate of his deceased father.

The following concerning the Dobbs' well and the Sipe Springs tests are from The Rising Star Record:

After acidizing with 4,000 gallons, W. J. Dobbs No. 1 V. B. Hodges, section 11, block 2, H&TC survey, Comanche County, was understood to have had slight increase of oil from 25 barrel daily registered previously from a sand from 2,537 feet to 2,710 feet. Casing was set at 2,525 feet. Considerable water was reported.

Near Desdemona, but in Comanche County, Gallagher-Lewis et al No. 1 Mrs. Bobbie L. Terry, N. H. Kuykendall Survey, was drilling ahead at 4,850 feet in Ellenberger lime topped at 3,404.

J. D. Belckelman of Fort Worth was making preparations to drill No. 1 Herman Zellars, D&DA survey, one mile north from Sipe Springs, Comanche County, to 1,000 feet. Location was 750 feet from the west and south lines.

The territory immediately near Carbon gained its second operation when Dobbs Oil Company of Dallas announced location for a 3,500-foot wildcat on the W. J. Greer and others' land two and a half miles south of the city. With spudding slated April 1 or sooner, the test will be 300 feet from the west and 330 feet from the north line of the J. E. Hardy survey. This well is in a block of 2,500 acres.

Whiteside, Lockhart and Harvey, with Marion Harvey as contractor, are moving in on the A. O. Angel place four miles west of May, near the old Keough well for a test to the Ranger line and will be drilling soon.

Often on Thursday we are asked over the telephone if it is too late for a want ad. We can take these ads up to sundown Thursday. Of course, we had rather have them sooner if possible.

The supreme responsibility of a bank is to safeguard the interest of its depositors.

We get about 100 weekly papers on exchange and in looking over these, we find that groceries are sold cheaper in Comanche than most any other town. The prices here are attracting trade from a wider range than ever before and nearly every store is filled with buyers, many of them from distant points.

It is a good idea for a candidate for governor to have a platform, says Jim Ferguson. "Then you don't have to worry today trying to remember today what you said yesterday," the ex-governor told a prospective candidate for governor.

When Hill Huddleston, City Secretary, passed to the Great Beyond, not only Comanche, but the entire county, lost one of its best citizens. He was a valuable man in many ways and always stood for the better things of life. It was less than a month ago that he told this writer that he was tired and needed a rest and when we suggested that he take a vacation, he said, "There is so much work to do, and the public is sometimes critical of an official who takes a vacation, I have been on the job almost continuously since I took office. It is hard on my nerves, but I like the work and want to please the people and do not want them to think I am shirking my duty."

Parent education is much talked of now says The Dallas Journal. They have to learn how to entertain themselves when Junior has the family car.

Ernest O. Thompson, candidate for governor, has announced as the first plank in his platform, "No New Taxes for Texas."

The publicity given in the newspapers and over the radio by Governor James V. Allred before he told the people he would not be a candidate for third term is like the big circus that came to town and erected its tents and then announced to the boys who had gathered around, "There ain't going to be any show."

All candidates from the lowest to the highest, are entitled to your respect even though you may not believe they are your choice for the office they seek, says The Clifton Record.

Usually all the candidates have business relations with a newspaper and we learn to like them and hate to see any of them defeated.

In defense of our Postmaster and Chairman of the Wild Life of Comanche, we quote this from an exchange, so that the public may not be too critical if they see Mr. Fanes out fighting the cats: "Stray cats destroy more wildlife in the United States than all the owls, hawks, and snakes combined. Stray cats on the farm cut down birds that fight the insect pests. 'Curb the Cat' is one of the Wild Life Week messages sent out by the 4-H members, the Camp Fire Girls, the Future Farmers, the sportsmen's clubs and other

allies of the National Wild Life Federation."

"A hog never looks up to him who threshes down the acorns,"—Webster's Blue Back Speller.

Something else to boast of—One county in Texas produces more spinach than any state in the Union outside of Texas.

No marriage was ever a failure in which both the husband and wife tried to make it a success, says Dorothy Dix.

Next week, April 3 to 10 has been declared as "Clean-Up Week" for Texas by Governor Allred and it is up to "Comely Comanche" to make war against rubbish, filth, and mosquitoes.

Bible Thought: "For if we have been planted together in the likeness of death, we shall be also in the likeness of His resurrection."

Although Comanche is known as a sheep and goat raising center, if you want to go on a wild goose chase, try to find lamb chops or mutton at any of the meat markets or any of the cafes of Comanche, or as to that matter in any of the towns in West Texas. Many people like this meat and just why it is not sold more in the great sheep and goat raising section is hard to answer.

Dan Holladay of Hico, the backfield football star who made such a favorable impression in Comanche last fall when the Hico football team played Comanche, will be heard over a Nation-wide radio hook-up over WBAP Saturday morning at 9 o'clock. He will appear on a 15-minute broadcast from John Tarleton College as part of a FFA program at the district meet.

Another way to succeed, says The Waco Times-Herald is to go some place where you are "Mister" instead of "one of them Jones boys."

Charles Darrow, the widely-known criminal lawyer, died recently at his home in Chicago at the age of 80. The scope trial in Dayton, Tennessee, in which William Jennings Bryan was on the other and winning side of the case, was one of the most noted trials in which he took part. The Williamson County Sun says, "Mr. Darrow was an agnostic before the breath left his body, but he is now no longer an agnostic. He now sees face to face."

From 1917 to 1937, the population of Texas increased 38 per cent, the number of State officials and employees increased 246 per cent, taxable value of property increased 43 per cent and State government expenses increased 670 per cent. There is room for thought in these figures.

The Dublin Progress on the authority of an 80-year-old man who once was bald headed and now has a nice head of hair, gives the following remedy for baldness: "Quit wearing a hat and apply listerine twice monthly for six months to the bald spot and watch the hair come back."

Easter this year comes on April 17th. It always comes on the first Sunday, after the first full moon after the 21st of March.

A great English divine once said to his wife, "Susanna, why is it you tell the children 20 times to do the same thing?" His wife replied, "John, because, 19 is not enough."

The U. S. Housing Authority has launched a slum clearance and housing construction program. President Roosevelt has signed a contract for loans totaling \$16,836,000 for five cities to begin clearing their blighted areas and constructing houses for

the slum dwellers. Austin, Texas secured a loan of \$640,000.

Drawing \$1000 per month, Governor James V. Allred, said, "I am deeply in debt, and owe it to my family not to run for governor, but to make more money than that office pays."

Nothing please a loafer better than to annoy a busy man.

"I used to think that Lincoln or Jefferson was the greatest man this country ever produced, but after a year of married life, I am convinced that it was my wife's first husband."—Ex-Bachelor.

Eliminating grade crossings may provide jobs for some, but think of the casket makers who will be thrown out of work.

George S. Clarke, mail carrier on Route 3, says he does not believe there are any women in Heaven and quotes Revelations Chapter 8, Verse 1, to prove his contention. We are not going to the trouble to look up this verse, but regardless of what it may say, we do not believe any place could be Heaven without the women.

"The Comanche Chief"

Dear Mr. Editor:
An item in the "Chief" of March 25th, states that the Post Office Clerks in Comanche work only forty hours a week, or five days a week and get two holidays a week. The forty hour week is a law enacted by the Congress of these United States and not a local condition as some people are led to believe. We get seven holidays a year and not two a week and allowed compensatory time for hours in excess of the forty hours prescribed by Federal Law.

Please give this correction space in your next edition of "The Comanche Chief."

Yours respectfully,
A. S. Morse, Clerk,
Comanche Post Office.

We used to think that when anyone got time off from their regular work it was a holiday, but we should have known that there were no holidays for any one with a new house and a big yard.

Revelations Chapter 8, Verse 1: "And when he opened the Seventh Seal, there was silence in heaven about the space of half an hour."

A check on records in the court house show that there are two families in Comanche who have cost Comanche County \$700 in board bills at the jail.

COST OF LIVING

The cost of living continued to decline last month according to a survey made by the National Industrial Conference Board which showed that foodstuffs purchased by the American housewife went down 2.3 per cent last year, rents one-half of one per cent, men's clothing 1.1 per cent and women's clothing seven-tenths of one per cent. While these declines are not very great they indicate that the American dollar will go further this spring. Two other important family items, the cost of gas and electricity were unchanged last month.

IN THE SHADOW OF THE CAPITOL

(BY BOYCE HOUSE)
Austin is distinctive among Texas cities—even the street lights are different. They are on towers as tall as East Texas oil derricks and are moored to earth by four heavy cables. Atop each of the slender, steel lattice-works are five lights of a weird, Edgar Allan Poe kind of blue. They suggest star shells above "No-Man's-Land" on World War nights or a Fourth of July bomb that goes high into the air before it explodes and five balls of blue burst into view.

Signs of the times: On an archery range in the edge of Houston, "24 arrows, 25 cents; bow free."

In a Dallas cafe:
"I buy my food F. O. B.:
Pay for it, too, C. O. D.:
And I serve it P. D. Q.:
I can't live on I. O. U."

And in a Fort Worth sandwich shop, "Try a chiliwich." Says which?

Wayne Sellers, capable, young Eastland County newspaperman, has announced for the Legislature. He is the son of M. S. (Doc) Sellers, popular publisher of the Rising Star Record.

These are the days when spring decks the hills and glades of East Texas with fresh, fragrant, brilliant beauty, not the least, delightful touch being the bloom of which the celebrated poet, Richard LeGallienne, in his "Ballade-Catalogue of Lovely Things," wrote: "The enchanted dogwood, with its ivory trays." Many of the trees around Lufkin and Nacogdoches look as though a hundred white-winged butterflies had alighted.

Then there are the pink, plushy, wildpeach blooms; and, near Alto, one can see from the highway a cottage that is almost hidden by a cataract of vines with great masses of smoky blue blossoms.

And what a contrast is offered along the road between Angleton and Bay City—the old trees, with long gray beards of moss, and thousands of young clover blooms dancing in the breeze.

of the Tropico Oil and Gas Lease
Company, a partnership and the
unknown trustees, officers and
stockholders of the Tropico Oil
and Gas Lease Company, a trust
estate are defendants, said peti-
tion alleging that on or about
June 28, 1937, defendant Dobbs
and his agents purported an in-
strument in writing, generally
known as an oil and gas lease in
which Mrs. A. C. Bellomy, Mrs.
A. E. Wilson, J. T. Bellomy, Mrs.
S. E. Whitaker, Mrs. M. M. Simp-
son, Mrs. P. E. Hill, W. J. Bel-
lomy and W. E. Wilson were named
as lessor and defendant Dobbs
was named as lessee; that by the
terms of said instrument lessor
leased and let to lessee 173 acres
of land more or less being the
Southwest quarter of Section No.
12 in Block 2, H. & T. C. Ry.
Survey, described by metes and
bounds in Vol. 57, page 119 in the
deed records of Comanche Coun-
ty, Texas, to which reference is
here made for all purposes; that
said land is also described as 150
acres fully described by metes
and bounds in deed recorded in
Vol. 112, page 477 of the deed
records of Comanche County,
Texas. That said oil and gas lease
was signed by Mrs. A. C. Bellomy,
Mrs. A. E. Wilson, Mrs. P. E. Hill,
J. L. Hill, W. J. Bellomy and W.
E. Wilson but was not signed by
plaintiffs J. T. Bellomy, Mrs. S.
E. Whitaker, Mrs. M. M. Simpson
and J. E. Simpson, and the
acknowledgment of Mrs. P. E.
Hill was not taken by a notary
public as required by law; that
at the time said lease was signed
by said parties and before the
signing of the same it was agreed
by and between the plaintiffs who
signed said instruments and the
defendants Dobbs and his agents,
one McDonald that said lease was
not valid and was not binding on
any of the parties who signed the
same until the parties named in
said lease as lessor agreed to and
signed the same; that at said
time it was stipulated and agreed
by and between the parties sign-
ing said lease and the said Dobbs
and his agent McDonald that said
lease was not delivered and would
not be delivered as a valid and
binding lease and contract until
all of said parties named in said
lease and contract until all of
said parties named in said lease

had agreed to and signed the
same; that each plaintiff at the
time he or she signed said lease
and before signing same stipulat-
ed and agreed with said Dobbs
and his said agent, that said lease
was to have no force and effect
unless and until the same was
agreed to and signed by all the
plaintiffs and parties named in
said lease owning an interest in
the lands described in said lease
and at said times it was agreed
that said lease was not and should
not be delivered as a binding lease
and contract until all the plain-
tiffs named as lessor therein had
agreed to and signed the same;
that said agreements were made
for the use and benefit of the
plaintiffs who did sign said lease
and for the use and benefit of
the other parties named therein;
that said lease was never legally
delivered, but there was manual
delivery thereon to said McDon-
ald for the sole purposes of se-
curing the agreement and signa-
ture thereto of all the plaintiffs
named in said lease and gas lease
upon said land or upon the in-
terest of any party named there-
in; that said Dobbs and his agent
did not pay to plaintiffs or any
of them any consideration of any
kind or character for said pur-
ported oil and gas lease and did
not agree to do or perform any
act or thing whatsoever as a con-
sideration therefor and said in-
strument and purported lease was
and is void and of no force and
effect; that said Dobbs and his
agent presented said lease to
plaintiff J. T. Bellomy who re-
fused to agree to same and re-
fused to sign same and said in-
strument was never presented to
Mrs. S. E. Whitaker and Mrs. M.
M. Simpson for their agreement
and signature; that said Dobbs
and his agent fraudulently placed
said instrument of record in the
deed records of Comanche
County, Texas, and by written
instruments assigned interests
therein to the other defendants
named herein and are now claim-
ing that said instrument consti-
tutes a valid oil and gas lease
upon a large part of said lands
and premises; that said lease is
invalid and of no force because
it was never delivered and be-
cause there was no consideration
and is incomplete on its face and
the claims of the defendants and
the records of said instrument
casts a cloud on the title of the
premises and the minerals there-
in and the oil and gas lease there-
on. That Mrs. A. C. Bellomy owns
only a life estate in the lands
and premises described in said
lease and Mrs. A. E. Wilson, J.
T. Bellomy, Mrs. S. E. Whitaker,
Mrs. M. M. Simpson, Mrs. P. E.
Hill and W. J. Bellomy each own
an undivided one-sixth (1/6) in-
terest in said lands and premises
subject to the life estate of the
said Mrs. A. C. Bellomy and that
no well for oil and gas has ever
been drilled on said lands. Plain-
tiffs pray for citation to all de-
fendants and for judgment by pub-
lication to defendants named in
this citation and for judgment
cancelling said purported oil and
gas lease and the record thereof
and for judgment removing the
cloud cast upon their title by the
claims of defendants and said pur-
ported lease and the records there-
of and for judgment decreeing
that defendants have no right,
title and interest in said lands
and premises or in the minerals
therein and in the alternative if
it be found that defendants or
any of them have any right, title

HERE ARE SOME REAL FACTS ABOUT NATURAL GAS

COOL . . .

◆ Kitchens are as cool as the parlor with natural gas.
Housewives may go on with their means unconscious of
additional heat. Those who have worked over old-fash-
ioned coal and wood ranges can really appreciate this
fact. Natural gas, in an abundant flow keeps the kitchen
at a minimum temperature. Natural gas is nature's
coolest fuel.

Economical . . .

◆ The savings on Natural gas during the summer
months are nothing short of sensational. Even with the
continuous use of the stove in canning, preserving, and
cooking during the summer months, the economy of
Natural gas stays at a minimum cost. It IS economy to
use Natural gas.

Convenient . . .

◆ Convenience is paramount in the use of Natural gas.
No fuss, no bother, no muss—just turn the burners and
an instant hot blaze is yours for the effort. Natural gas
is dependable for it is always there when you need it.
Natural gas is nature's most convenient fuel.

More Donations For Episcopal Church Asked

Last week I had an article in The Comanche Chief asking for free will offerings to move the Episcopal Church up to the front of the lot facing East Main Street and to cover and paint the house in order that the members of this little church could hold their services in reasonable comfort. Donations have been coming in equally as well as expected; however we are considerably short of enough money to make these necessary improvements, and we are going to still continue our campaign for these offerings.

I want to ask fifty or more citizens of Comanche County who are able to send Mr. Waring or myself one dollar between now and April 5th. We are just about ready to let some contracts on the moving of the church and I am sure that if you send me this little offering you will never miss it and be benefitted by really doing your duty. This is an improvement badly needed in Comanche, and we should all rally to such a worthy movement.

Respectfully,
H. BURKS.

Bob Sullivan Hurt In Car Accident

Bob (Dot) Sullivan, son of Mr. and Mrs. Mike Sullivan, of Comanche, suffered a broken shoulder and other injuries which will keep him in a hospital for at least two weeks in an automobile accident near Hamilton Sunday in which a Hamilton man lost his life.

The following concerning the accident is from The Star-Telegram:

Jack Durham, 29, former captain and center of Texas Tech football team, was killed Sunday in the collision of his machine and a truck near Hamilton.

Bob Sullivan, riding with him, suffered an injured shoulder.

Officers said the accident occurred when Durham's machine was turned around in the highway to reverse its course.

Durham, a ranchman, captained the Tech teams in 1930 and 1931.

Sullivan took a turn for the worse Thursday and plans are being made to remove him to a Dallas hospital today.

 The Priddy F. F. A. boys were in Comanche March 11th to attend a trench silo demonstration. Some of the boys took some of the feed from the silo home to show their fathers what it is like.
 On March 16th, the boys visited the Wm. Koch place and filled a silo. They learned to shingle the feed in a silo and how to make one.
 Members of the local chapter are now constructing a trench silo on the school grounds and Henry Bufe is donating the feed.

ROBERT L. BLACK
The departure of my dear friend, R. L. Black on Feb. 26th brought great sorrow not only to his family and other relatives, but to many friends as well.

We know that God in His wisdom and love for us in the death of one of our friends or loved ones can take away much of our sorrow as no other one can do. But sometimes it is very hard to give up one we have been so closely associated with and learned to love so dearly as I have my close friend, Bob Black.

It was my privilege to meet Brother Black some twenty or thirty years ago and we soon became good friends. This friendship grew until it developed into a relation close to brothers in the flesh and most assuredly a true brother in Christ.

In my association with him I have had every opportunity to learn his real life or manhood and it gives me great pleasure to say he was truly not only a gentleman, but one of God's most true and devoted followers. His convictions of education, politics and religion were evidenced by his life.

I have lived in the same house with Brother Black and we had our joys and sorrows together. When he rejoiced I could rejoice and when he was in sorrow I could help in that sorrow, but the sad time came on this February day when I stood at his bedside, held his hand and saw death claiming him and I could not bear any part of his suffering. We could only say Thy will be done, Oh God.

—S. T. Stover.

Layman Back In Prison and Sends Letter To Chief

Benton Layman, who is now back in prison at Huntsville after spending several months in jail here while waiting to testify in court and later enjoying a furlough, sends the following article to The Chief this week for publication. The article, which speaks of Layman in the third person, was neatly typed on prison stationery and prepared for news release. The article as sent, follows:

Benton Layman, former Comanche County Star Route mail carrier and baseball player, volunteered back to prison, March 18, after failing to get an extension on a thirty day reprieve. Mr. Layman says it was heartbreaking to walk off and leave his loyal and loving wife and two sweet children. However, regardless of the time he has to serve Layman is the kind of man that would not break his word no matter how much pain and suffering it may cause him.

"Layman has already served almost five years of his sentence. He is a first time loser. He received a life sentence for his part in a robbery charge in Somervell County, in 1934. The only other party convicted with him, a fourth time loser, only received seventeen years. But maybe this is justice?"

"Mr. Layman warns all men and boys to take the straight and narrow path. If all men and boys would listen to him they would never go to prison and cause themselves and their dearly loved ones all the pain and suffering that dishonesty entails. He says, that if the outside world would try as hard to get him out of prison, as he would work to keep their boys out of prison, it would not be long until he would be a free man. But it seems that once a man takes the wrong road of life, no matter how hard he tries, it seems hard for one to convince the people that he will go straight again. But he says; if highwaying it three hundred miles, and volunteering back to prison and letting these old steel doors close behind him, with a life sentence to do, does not convince the people that he is a reformed man, and would go straight if given another chance in life then he says, it does not look like he will ever be able to prove it. But that, he says, is the sorrow and disgrace of the road of crime.

"Layman says that he is only allowed to write two letters a week, but that he can receive all that are written to him, and that he will be very pleased to hear from anyone that cares to write to him, and that any letters or help in any way will be highly appreciated.

"Now men and boys when you read this, remember, that when you are sentenced behind those cold grey walls you are almost a forgotten man, and so just remember that when tempted to commit some crime that crime does not pay.

"Benton Layman, No. 77530, Box 32, Huntsville, Texas."

Says Bond Sale Not To Be Discontinued

(By J. R. Eanes, Postmaster)

There is no foundation for the report recently appearing in some daily newspapers, that the sale of United States Savings Bonds will be discontinued April first or at the close of this fiscal year. The Treasury Department has no plans to discontinue the sale of these bonds April first or any other date.

The purpose of these bonds is to furnish the small investor an avenue for investing his savings in attractive Government securities, and in the two years they have been on the market more than a million and a quarter citizens have bought these bonds, and there is no intention on the part of the Treasury Department to discontinue their sale.

The Third Assistant Postmaster General has just released an analysis of the sales of United States Savings Bonds from September 1, 1936 through August 31, 1937. Total sales for the nation through this period amounted to \$636,748,500; total sales since March 1, 1935 when bonds went on market, \$1,584,462,000.00. These bonds were sold to 1,260,000 investors, thus making U. S. Savings Bonds the most widely distributed security. Average daily sales since bonds were put on the market amount to \$1,720,375.00; average daily sales from Sept. 1, 1936 through August 31, 1937, \$2,101,500.00; sales for the year 1937 showed a 34.2% increase over sales for 1936. Of all bonds sold since March 1, 1935, only 8% have been cashed by owners. Of bonds sold 85% have been purchased by individuals, 9% by banks and 6% by corporations and associations.

During the period from Sept. 1, 1936 through August 31, 1937, bonds totaling \$19,556.00 were sold through the Comanche Post Office. Of the 203 second class offices in Texas, the Comanche office ranked 63rd on a per capita basis. The oil town of Conroe ranked first of the second class offices, with a sale of \$140,200.00 in bonds. Gladewater, another oil town, ranked second.

For information in reference to these bonds, you are invited to call at local post office.

"Uncle Jim" Nabers, 81, who set type for the first issue of The Comanche Chief sixty-five years ago, was honored on his birthday with a banquet Tuesday night at the I. O. O. F. Hall by the Rebekahs and Odd Fellows.

He was presented with a birthday cake and two porch chairs, one for himself and one for his wife, "Aunt Mary."

"Uncle Jim" has been an Odd Fellow since 1899. He is one of the oldest active carpenters in Texas and still climbs the steepest roof when there is a shingling job to be done.

WEDDING OF MR. AND MRS. T. J. WILLIAMS, NEW RESIDENT OF COMANCHE, WAS CELEBRATED AT ROCKDALE SCHOOL IN DALLAS, AT RANDOLPH-MACON COLLEGE, AND AT UNIVERSITY OF MISSOURI AND AT COLUMBIA UNIVERSITY, NEW YORK CITY.

A wedding of unusual interest was that of Miss Editha Grace Williams and Gail Dudley on Tuesday evening at the home of the bride's parents, Mr. and Mrs. T. J. Williams. Guests were received by members of the Williams family. The house was artistically decorated in white lilies, snap, dragon, stock and ferns against a background of Southern smilax. The improvised altar in the living room was marked by a large cluster of calla lilies, flanked by cathedral candelabra.

At the appointed hour, Miss Marion Ringler of Fort Worth, and Mrs. Thelma Kraus were escorted to the piano by Harold Williams. Mrs. Kraus played for a prelude, "My Heart at Thy Dear Voice," from the opera, "Samson and Delilah." The pre-nuptial song by Miss Ringler was, "I Love Thee," by Greig.

At the first notes of the Wagner Lohengrin Wedding March, Mrs. Coman Shear, sister of the bride, and matron-of-honor began the descent of the stairs. She wore a formal dress of rose marquisette, and carried blue cornflowers.

The bride, escorted by her father, wore white satin with a train and a finger-tip length veil falling from a Marie Antoinette coronet of pearls and net. Her flowers were lilies of the valley.

Waiting at the altar were the groom with his brother and best man, Tom Dudley. The ring ceremony was read by Rev. A. E. Wilson, with the soft glow of the altar tapers furnishing the only light during the ceremony.

After greetings from family and friends, the bride threw her bouquet which was caught by Miss Sue Bailey of Fort Worth. She also cut the three-tier wedding cake which centered the dining table and was outlined with sprays of lilies and snap dragon.

The guests were served wedding cake and punch by Mrs. Harold Williams, Mrs. C. E. Williams, Mrs. Herbert Williams, Mrs. Wade Evridge, Mrs. Jake Durham, Misses Theresia and Faye Bell Dudley, Mrs. Coman Shear and Mrs. Thelma Kraus. Mrs. T. J. Williams wore beige marquisette with tulleman roses, and Mrs. Bell Dudley wore blue with lace trimming.

The bride and groom left immediately for their ranch home west of Comanche, where they are at home to their many friends. Mrs. Dudley is the youngest

daughter of Mr. and Mrs. T. J. Williams. She received the major part of her education at Rockdale School in Dallas, at Randolph-Macon College, and at University of Missouri and at Columbia University, New York City. Mr. Dudley is the senior member of the rapidly expanding business of Dudley Brothers, and is rated as one of the most successful young business men in this section.
